Type:

**Technical Brochures**

Title:

**Implementation of long AC HV and EHV cable systems**

## Abstracts

"The aim of this CIGRE Working Group is to prepare a comprehensive Technical Brochure which it is hoped will be a valuable document for reference by any Utility, Government agency or Investor looking to put in an underground system in lieu of an overhead line, or a long length of submarine cable, particularly in terms of appreciating what can be done or has been done. "
