Reference: **ELT_310**

Type:

Electra

Title:

June 2020

Abstracts

- Strategy and decisions during difficult times
- 1946 Paris Opening Session speech

Global Connections

- System Operations impact of Covid-19: European Perspective
- The mastering of large electrical systems - Interview with André Merlin
- The Emissions Gap: The current decade is defining for our future
- Hydrogen scalable production for a sustainable and breathable world

Life of Association

- General Assembly
- Distinguished Member Awards 2020
- Technical Council Awards 2020
- Thesis Award 2020 : Roni Inawan

Annual Reports

- B3: Substations and electrical installations
- B4: DC systems and power electronics
- B5: Protection and automation

-
- WG A2.54: Load sound power levels for specification purposes of three-phase 50 Hz and 60 Hz liquid-filled power transformers

-
- 798 - WG B4.66: Implications for harmonics and filtering of the installation of HVDC converter stations in close proximity
 - 799 - WG C4.31 : Assessment of conducted disturbances above 2 kHz in MV and LV power systems
 - 800 - WG B5.47: Network protection performance audits
 - 801 - WG B1.44: Guidelines for safe work on cable systems under induced voltages or currents
 - 802 - WG B3.45: Application of non-SF6 gases or gas-mixtures in medium voltage and high voltage gas-insulated switchgear
 - 803 - WG C5.24: Exploring the market value of Smart Grids and interactions with wholesale (TSO) and distribution (DSO) markets
