**Green Books**

Title:

**Accessories for HV Extruded Cables**

## Abstracts

By starting the "CIGRE Green Book" series, CIGRE follows the vision to create the best possible reference books available in the market on the various subjects of electrical power networks as dealt with by CIGRE and its Study Committees. The purpose of this Reference Book is to provide information based on the work completed by many experts in SCB1 Working Groups, Task Forces, Joint Working Groups and Joint Task Forces in the past 20 years and to publish unbiased recommendations and guidelines from CIGRE for design, installation and testing accessories.
